Heaviest weight ever to be lifted with any kind of commercially available glue

In October 2007 - With 9 drops of the 'UHU All Purpose Adhesive Super Strong & Safe', a Ford Pick Up Truck weighing 4,140 kg was glued to a crane and suspended in air for an hour.

60 mins later, the pick up was still hanging above the ground. Even a gusty wind, which kept turning the vehicle, could not affect the bonded joint.

Visit Faber-Castell's booth during the BookFest to see what surprise we have in store for you, with the demonstration equipment (on the left)!

# UHU®

glues anything, anytime.
