With 320 Activity Cards &
3,200 Brain Teasers.

▶ LOGICO Maximo

For 8 to 12 years old
With 256 Activity Cards &
3,336 Brain Teasers.

Testimonials:

"The arrangement of the LOGICO PICCOLO course is quite thoughtful. The contents of the learning cards are all related. Children have to put together the knowledge they have learned at each stage to complete the games. This could help children to develop good learning skills." *A Primary School Teacher in Singapore*

"Matching with the school syllabus, but it turns traditional knowledge concepts into symbolic and interesting demonstrations. It makes learning become so much fun and easy for children. Moreover, the self checking system helps to develop my son's self-learning habit. What i need to do is to encourage him and praise him, and to provide minimum assistance when needed." *The Parent of Singapore Student*
